

## IN THIS TIME APART

*By Chris Crabb, Chase Baker, and Jay Tibbitts*

We said goodbye beyond the bend  
And I turned my sails into the wind

I can't face the world alone  
Even the strongest need a home

Eager to face the trail ahead  
"I'm so proud" is all you said

And only the foolish show their cards  
But I can't hold on  
I've been lost in this time apart

But here where I have fought to be  
I prefer your memory

Can I say you it's been hard  
Since you've been gone  
I've been lost in this time apart

And I know

That only the foolish show their cards  
But I can't hold on  
I've been lost in this time apart

In this time apart  
I learned that I need you  
In this time apart

Can I say that it's been hard  
Since you've been gone  
I've been lost in this time apart

I learned that I need you  
I learned that I need you

In this time apart  
I learned that I need you  
In this time apart

I'm losing track of where I've been  
In the same new town and the same new bed

I try to re-invent your face again  
It's never clear as I intend

And I know

That only the foolish show their cards  
But I can't hold on  
I've been lost in this time apart

Can I say you it's been hard  
Since you've been gone  
I've been lost in this time apart

In this time apart  
I learned that I need you  
In this time apart

In this time apart  
In this time apart  
I learned that I need you  
That I want you  
Can't breathe without you
